Correlation between Book Ratings and Reviews

Scatter plot of Reviews (0K–200K) vs Ratings (0M–10M)

Top 10 Authors by Reviews

Author	Count of Reviews
V.C. Andrews	43
Agatha Christie	39
Stephen King	39
Philip K. Dick	36
C.S. Lewis	32
Terry Pratchett	27
Isaac Asimov	24
K.A. Applegate	24
P.G. Wodehouse	24
Bernard Cornwell	22

Correlation Coefficient

0.91

The correlation between Ratings and Reviews is strong and positive (0.91), indicating a high positive relationship between the two variables. Hence, it can be concluded that the more popular books have more ratings and are likely to have more reviews
